Senior Business Systems Manager | Enterprise Applications | AI-Enabled Finance & Procurement Automation

SUMMARY

Business Systems and Technical Program leader with 9+ years of experience driving finance, procurement, and enterprise platform transformations across NetSuite, Anaplan, Workday, Coupa, G-Treasury, CLM, and custom systems. Proven record designing scalable workflows, automating procure-to-pay and contract processes, deploying AI-enabled operations, and leading UAT, rollout, training, and business continuity across Finance, Procurement, Legal, Supply Chain, IT, and People stakeholders. Delivered \$6–8M annual tax optimization, 70% faster vendor onboarding, 6 FTE annual savings, and measurable business system stabilization.

CORE SKILLS

- **Enterprise Platforms:** NetSuite, Anaplan, Workday, Coupa, G-Treasury, CLM, Glean, Jira, Confluence, Box
- **Finance & Procurement Systems:** Procure-to-pay, vendor onboarding, AP invoice automation, intercompany SO/PO, inventory/accounting workflows, approvals, spend visibility, cash-flow reporting
- **AI / Enterprise Search & Automation:** AI agent roadmap, agentic workflows, LLM-assisted automation, enterprise search, source indexing, custom connectors, Power Automate
- **Systems Leadership:** Business systems roadmap, build-vs-buy, configuration/integration oversight, UAT, release planning, change management, training, stakeholder alignment
- **Analytics & Reporting:** Power BI, KPI design, operational dashboards, predictive modeling, executive reporting
- **Certifications:** PMP | Negotiations & Influence (UC Berkeley)

PROFESSIONAL EXPERIENCE

Technical Program Manager - Nextpower LLC

Fremont, CA | July 2021 - Present

- Led ProCo finance/procurement systems transformation across NetSuite, Anaplan, Workday, Coupa, G-Treasury, and custom applications, establishing a UAE-based procurement entity and designing automated intercompany SO/PO, inventory, accounting, approval, and reporting workflows that drove \$6–8M annual tax optimization; coordinated UAT, stakeholder signoff, cutover, and business continuity across Tax, Finance, Supply Chain, Procurement, and IT.
- Led procure-to-pay modernization through build-vs-buy assessment, internal Suitelet for vendor onboarding, and AP invoice processing bundle; achieved 80% invoice scan rate and reduced vendor onboarding from 47 to 13 days (70% faster).
- Drove enterprise CLM platform implementation across Legal, Sales, Finance, and Engineering; defined workflows, permissions/security, integrations (SSO, CRM, e-signature), migration strategy, UAT, training, and launch readiness for a secure, auditable contracting ecosystem.
- Created and executed AI adoption roadmap for 8+ AI agents across documentation automation, indirect procurement sourcing, and compensation workflows; owned requirements, evaluation/validation, stakeholder alignment, and deployment through an AI orchestration platform.
- Led enterprise search rollout using Glean, designing a scalable indexing and connector strategy across business systems to improve knowledge discovery, permissions-aware retrieval, and access to cross-functional data across enterprise teams.
- Stabilized Anaplan enterprise planning system by resolving 250+ backlog issues and launching 4 major projects; improved user sentiment from -30 NPS to +7 within 6 months.
- Delivered automation at scale using Power Automate and RPA across proof of delivery, planning, logistics, and procurement, saving 6 FTEs annually and 260 employee-hours per month while reducing manual errors.

Indirect Procurement Manager - Nextpower LLC

Fremont, CA | Aug 2020 - June 2021

- Negotiated vendor contracts, extended payment terms from Net 30 to Net 75, and delivered 24% cost savings while improving spend discipline and supplier management practices.

Growth Strategy & Operations MBA Intern – ETI Precision

Baltimore, MD | May 2019 - Aug 2019

- Reduced manufacturing lead time by 25% by analyzing supply chain workflows, bottlenecks, and operational constraints.
- Built profitability model that improved job classification, pricing visibility, and bottom-line margins by 8%.

Deputy Manager – Technical Project Management - Lafarge

Raipur, India | Aug 2013 - Jul 2018

- Led Maximo-to-SAP maintenance module migration, reviewing, cleansing, and mapping equipment/maintenance records while coordinating readiness and adoption across plant teams.
- Led PLC, SCADA, and analog-to-digital control modernization programs end-to-end, improving plant reliability from 95% to 98% and delivering \$2M annual savings through upgraded cooling-system controls.

EDUCATION

MBA - Georgetown University, McDonough School of Business
B.E. - National Institute of Technology

Washington, DC | 2018 - 2020
Nagpur, India | 2009 - 2013
